# E

---

Erabella is a melodic hardcore band from Algonquin, Illinois. The band is comprised of members; Chris Hughes (vocals), Jovany Parra (guitar), Connor Rennels (guitar), Jon Martin (drums), and Austin Reid (bass). The group formed in early 2017 with one goal in mind: to be one of the most energetic and exciting live bands that audiences will want to see.

In mid-July of 2017, Erabella traveled to industry professional Josh Schroeder to record their newest record, Kingdoms EP. Josh is responsible for recording albums for bands such as; In Hearts Wake, The Plot In You, The Color Morale, The Browning, and many more. With a brand new sound and image, Erabella waited eagerly to release the new material knowing that the time spent together growing as a band was well worth it.

In the fall of 2017, Erabella partnered with Defiled Management; and in the early months of spring of 2018, the band signed to PR firm, Seek and Strike in an effort to help push their music careers to the next level.

On June 1st of 2018, the Kingdoms EP was officialy released via Spotify, iTunes/Apple Music, Amazon, and Youtube. The record recieved over 22,000 streams on spotify in one month. Simultaneously, the band grew it's Spotify monthly listeners to 6,000+ and has been growing steadily since.

## **BEHIND THE MUSIC**

Erabella creates a type of music that touches both introverts and extroverts and does its best to reach out and connect with those that are going through struggles. Whether they be external or internal, Erabella strives to relay the fact that no matter how tall the mountain is, it is still climbable. The band's goal is to create music that not only touches audiences musically, but also emotionally. With their EP, Kingdoms, the band hopes to achieve the outcome of reaching out and touching those who may feel that their voice or concerns are not heard or noticed. Erabella hopes that Kingdoms will shed light on the issues that often go ignored.
